

STEADI Fall Screening Course

Learn how to conduct fall risk screening to help address falls in your clinic or community

The ISU Walk with Ease team has partnered with the Iowa Falls Prevention Coalition to create a training course to enable fitness and health leaders to conduct fall prevention screens in a standardized way.

The **FREE** online training course takes about 2-3 hours to complete and covers the key components of the CDC STEADI fall risk screening protocol.

The screening initiative is coordinated through the Iowa Community HUB so formal registration through the HUB is required prior to initiating the training.

The course is delivered through ISU Extension using video-based training modules. Click

HERE to register. More information is available on our webpage; <https://www.walkwitheaseisu.org/fall-risk-screening.html>
