Building Strong Clinical and Community Connections Through STEADI

Why STEADI Screening Matters

STEADI helps healthcare providers screen patients, identify risk factors, and take action before a fall occurs.

STEADI works best when paired with community programs.

These connections improve patient outcomes and strengthen local prevention networks.

Be a Partner in Falls Prevention Across Iowa!

How to Participate

Option One: Complete online STEADI training and receive free continuing education credits paid for through funding partners.

Option Two: Includes option one + receive additional funding to set up a referral pathway to the Iowa Community HUB for connection into statewide fall prevention programs.

Eligibility: Licensed physicians, care team members under licensed providers, or allied health professionals involved in patient assessment and referral.
